## SUMMARY

---

---

## EXPERIENCE

---

### Rail Data Manager

OmniTRAX, Inc

January 2020 – October 2023, US, Colorado, Denver

- Spearheaded comprehensive data initiatives to optimize rail operations, implementing a data warehousing solution using Snowflake.
- Led the migration of analytics workloads to AWS EC2 and Snowflake, resulting in improved scalability and a 25% reduction in infrastructure costs.
- Utilized PowerBI for creating dynamic executive dashboards, facilitating data-driven decision-making.

### Sr. Clinical Data Analyst

InnovAge

January 2018 – December 2020, US, Colorado, Denver

- Designed and implemented custom analytics solutions for real-time performance monitoring, achieving a 30% reduction in report generation time.
- Led the development of a scalable analytics platform using Python and Django, enhancing user engagement.
- Ensured code integrity and collaboration within a large analytics team using Git and GitHub.

### Data Science Analytical Consultant

National Jewish Health

January 2017 – December 2020, US, Colorado, Denver

- Drove impactful data-driven initiatives within the healthcare sector, integrating disparate data sources using database management systems.
- Rigorously tested applications software and analytics solutions, ensuring accuracy and reliability.
- Utilized BI visualization tools, including PowerBI, for enhancing executive-level understanding of complex data trends.

---

## EDUCATION

---

### Bachelor's Degree in Computer Science/ Bachelor's degree in Computer Science – Rogers State University, Claremore, OK (2010–2013)

Rogers State University • US, OK, Claremore • 2013
